HOW WILL A 21st-CENTURY APOSTOLIC CHURCH LOOK?

We are bound to an ineffective system and form of religion that denies the power of God. We come looking to be blessed and entertained instead of preparing to be used by the Lord.

However, God desires a church where people's lives are transformed and where they learn to walk in purpose. Only the apostolic church, as Jesus established it, can accomplish these objectives. Success will no longer be determined by how many people fill the seats, but by how many people we send into the streets.
