42. You sometimes feel that some force or power is controlling you from within, or you feel you are a different (strange) person.

43. You have ever observed yourself from some vantage point somewhere outside your own body (an out-of-body experience).

48. You experience compulsive temptations that seek to force you to thoughts or behavior that you genuinely do not want to think or do.

49. You have compulsive desires to tear other people down even if it means lying to do so, or you speak with a vicious cutting tongue (Satan will try to get us to attack anyone who is a threat to his hold in a problem area of our lives.)

50. You experience guilt and worthlessness, even after confessing your sin and failure to the Lord.

51. Certain physical symptoms suddenly appear and pass quickly for which there can be found no medical reason: (a) choking sensations, (b) unexplained pains that seem to move around, (c) feelings of tightness about the head or eyes, (d) dizziness, blackouts, or fainting spells.

52. You are frequently in deep depression and despair.

53. You have terrifying seizures of panic or abnormal fears.

54. You have persistent doubt of your salvation even though you once knew the joy of your salvation.
